Change Notice

FR01, MR & MRB Series

Changes to Location of Production for AT433 Rotary Switches Knob

Type of Change:

- Engineering Part Number
 Product Appearance

The location of production for the AT433 knobs will be changing. The knobs are used for the FR01, MR and MRB Rotaries. They will be manufactured in the CHINA FACTORY instead of the JAPAN FACTORY. This change will apply to all the AT433 black knobs, standard or custom, used for the metal shaft type rotaries.

**Production Revisions for
AT433 Rotary Knobs**

Note

Contact information is below if more details are needed.

Effective Date

Changes in production location for AT433 black rotary knobs will be effective June 2024.
