

Changes to Name, Logo and Product Packaging

Type of Change:

- Engineering Part Number
 Product Appearance

For over 60 years, NKK has been committed to the manufacturing of industrial switches, and we value the trust our customers place in our quality and technological expertise. We are dedicated to advancing our reputation as a global company.

As a result of our globalization and simplification of procedures around the world, our group companies will change their names from “Nihon Kaiheiki” to “NKK Switches”. Accordingly, there will be modifications made to the logo on NKK Switches’ products and to packaging design.

Following are examples of the logo, company name and product packaging changes.

Before Change	After Change
 <p>Switches displayed the old logo and the old name.</p>	 <p>Switches will now display the new logo.</p>
 <p>Packaging displayed the old logo and the old name.</p>	 <p>Packaging will now display the new logo and name.</p>

Contact the factory if more details are needed.

Effective Date

Changes to logo, company name and product packaging will be effective April 1, 2014.
