Changes for AT600 Lamps & LEDs

There will be changes for several AT600 lamps and LEDs. The material of the lamp holder base is changing from phenol resin to glass fiber reinforced polyamide. The NKK logo, identification on the bottom of the lamp holder base, will no longer appear. These revisions will apply to the standard AT part numbers specifically outlined below, and include custom AT parts.

**Notes**

These changes have no effect on the illumination of the lamps or LEDs.  
 Lamp holder base color will vary with the change of material; however, the difference will be slight from the previous color and not noticeable.  
 Contact the factory if more details are needed.

**Effective Date**

Changes to the material of the lamp holder base and the removal of the NKK logo will be effective October 2018.
